

ANIBEX

SOLUBLE POWDER FOR PIGS

Abbey Animal Health Pty Ltd

SAFETY DATA SHEET

Section 1- Identification of Product and Supplier

Supplier Company Details: Abbey Animal Health Pty Ltd

Address: Unit 27, 1 Maitland Place Norwest NSW 2153, Australia.

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour Service).

PRODUCT NAME

ANIBEX SOLUBLE POWDER FOR PIGS

PRODUCT USE

For the symptomatic treatment of fever and inflammation in pigs.

Section 2- Hazards Identification

Statement of Hazardous Nature: Hazardous according to the criteria of SWA.

ADG Classification: None allocated. Not classified as a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

GHS Signal Word: WARNING.

Hazard Pictograms

GHS Classification

Acute toxicity (oral)- Category 4; Eye damage/irritation-Category 2A.

HAZARD STATEMENTS

H302: Harmful if swallowed.

H319: Causes serious eye irritation.

PREVENTION

P264: Wash affected areas thoroughly after handling.

P270: Do not eat, drink or smoke when using this product.

First Effective Date: 13th August 2024

Page 1 of 6

P280: Wear protective gloves/protective clothing/eye protection/face protection.

RESPONSE

P301+P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P330: Rinse mouth.

P337+P313: If eye irritation persists: Get medical advice/attention.

DISPOSAL

P501: Dispose of contents and containers as specified on the registered label and in accordance with local regulations.

Section 3- Composition / Information on Ingredients

Ingredients	CAS No.	Conc, %	TWA (mg/m ³)	STEL (mg/m ³)
Sodium salicylate	54-21-7	100%	not set	not set

Section 4- First Aid Measures

Call Poisons Information Centre Phone Australia 131 126, if you feel that you may have been poisoned or irritated by this product.

SAFETY DIRECTIONS

Harmful if swallowed. Will irritate the eyes. May irritate the nose and throat. Avoid contact with eyes and skin. Avoid inhaling dust. When opening the bag and preparing product for use, wear disposable gloves goggles and disposable dust face mask covering mouth and nose. Wash hands after use. After each day's use, wash goggles and contaminated clothing.

Swallowed: If swallowed, do NOT induce vomiting. Rinse mouth with water and contact a Poisons Information Centre or call a doctor.

Inhaled: Remove source of contamination or move victim to fresh air. If breathing is difficult, oxygen may be beneficial if administered by trained personnel, preferably on a doctor's advice.

Skin Contact: Quickly and gently brush away excess particles. Wash gently and thoroughly with warm water for 10-20 minutes or until product is removed. Under running water, remove contaminated clothing and shoes and completely decontaminate them before reuse or discard. If irritation persists, repeat flushing and seek medical attention.

Eye Contact: Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 20 minutes or until the product is removed, while holding the eyelid(s) open. Take care not to rinse contaminated water into the unaffected eye or onto the face. Obtain medical attention

immediately. Take special care if exposed person is wearing contact lenses.

Section 5- Fire Fighting Measures

Fire and Explosion Hazards: Non-flammable. There is no risk of an explosion from this product under normal circumstances. May be combustible at high temperature; fire decomposition products from this product may be toxic if inhaled. Take appropriate protective measures.

Extinguishing Media: Small Fire: use dry chemical powder. Large Fire: use water spray, fog or foam. Do not use water jet.

Flammability Limits: Does not burn.

Auto-ignition temperature: Not applicable - does not burn.

Section 6 - Accidental Release Measures

Accidental release: In the event of a major spill, prevent spillage from entering drains or water courses. As a minimum, wear overalls, goggles and gloves. No special recommendations for clothing materials. Eye/face protective equipment should comprise as a minimum, protective goggles. If there is a significant chance that dusts are likely to build up in cleanup area, we recommend that you use a suitable dust mask.

Stop leak if safe to do so and contain spill. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage and dispose of promptly. Consider vacuuming if appropriate. Recycle containers wherever possible after careful cleaning. Refer to product label for specific instructions. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services. Full details regarding disposal of used containers, spillage and unused material may be found on the label. If there is any conflict between this SDS and the label, instructions on the label prevail. Ensure legality of disposal by consulting regulations prior to disposal. Thoroughly launder protective clothing before storage or re-use. Advise laundry of nature of contamination when sending contaminated clothing to laundry.

Section 7 - Handling and Storage

Handling: Keep exposure to this product to a minimum, and minimise the quantities kept in work areas. Avoid contact with skin and eyes. Avoid formation of dust. Provide appropriate exhaust ventilation at places where dust is formed. Keep away from heat. Keep away from sources of ignition.

Storage: Store below 25°C (air conditioning) in a dry place. Protect from light. Make sure that the product does not come into contact with substances listed under "Incompatible materials " in Section 10. Check packaging - there may be further storage instructions on the label.

Section 8 - Exposure Controls / Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits TWA (mg/m³) STEL (mg/m³)
Exposure limits have not been established by SWA for this product.

No special equipment is usually needed when occasionally handling small quantities

Workplace Exposure Standards: No exposure limits have been established for this product.

The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: This product should only be used in a well-ventilated area. If natural ventilation is inadequate, use of a fan is suggested.

Eye Protection: Protective glasses or goggles must be worn when this product is being used. Failure to protect your eyes may lead to severe harm to them or to general health. Emergency eye wash facilities must also be available in an area close to where this product is being used.

Skin Protection: Prevent skin contact by wearing impervious gloves and clothes; protective clothing can be made from the following materials: rubber, PVC. Make sure that all skin areas are covered.

Respirator: If there is a significant chance that dusts are likely to build up in the area where this product is being used, we recommend that you use a suitable dust mask.

Eyebaths or eyewash stations and safety showers should be provided near to where this product is being used.

Section 9 - Physical and Chemical Properties

Physical Description & colour: White crystalline powder

Boiling Point: Not applicable.

Freezing/Melting Point: No data.

Volatiles: No data.

Water Solubility: Soluble in water.

pH: No data.

Evaporation Rate: Not applicable.

Viscosity: Not applicable.

Autoignition temp: No data.

Section 10 - Stability and Reactivity

Stability: Product is stable under normal conditions of storage.

Hazardous decomposition: Carbon monoxide, carbon dioxide, sodium oxides.

Conditions to avoid: Light, high temperature, incompatible materials.

Incompatible materials: Oxidizing agents, strong acids, ferric salts, metallic salts, lime water, iodine, silver nitrate, spirit nitrous ether, mineral acids, lead acetate, sodium phosphate powder, light.

Polymerization: Hazardous polymerization does not occur.

Section 11 - Toxicological Information

ACUTE TOXICITY

Oral (rat)	LD50	930 mg/kg
Oral (mouse)	LD50	540 mg/kg
Oral (rabbit)	LD50	1700 mg/kg

Ingestion: May cause mucosal and gastrointestinal irritation with headache, nausea, vomiting, diarrhea, gastric pain, gastric disturbances, dizziness, spasms, muscle tremor, impaired motor function and electrolytic imbalance. May be harmful if swallowed. Ingestion of sizable amounts can cause 'salicylism', as evidenced by abdominal pain, vomiting, increased respiration, agitation, euphoria, fever, impaired vision, dyspnoea, mental disturbances and collapse. May cause systemic toxic effects on the heart, liver, and kidneys. Fatalities resulting from respiratory or cardiovascular failure are known.

Inhalation: May cause irritation to the respiratory tract. Symptoms may include coughing, sore throat, labored breathing, and chest pain.

Skin: May cause irritation with redness and pain. May be harmful if absorbed through the skin.

Eye: May cause irritation, redness, pain and possible damage.

Section 12 - Ecological Information

Potential Environmental Considerations: No environmental data exists. However, avoid contamination of waterways, vegetation and tree roots.

Acute Toxicity - Fish LC50 (*Pimephales promelas*): 1370 mg/L /96 h.

Acute Toxicity - EC50 (*Daphnia magna*): 304 mg/L /24 h.

Section 13 - Disposal Considerations

Disposal

For pack sizes 200g, 500g, 1kg

Dispose of empty container by wrapping with paper and putting in garbage.

For pack sizes 5kg, 10kg, 15kg, 20kg

Shake container into the medicated water. Do not dispose of undiluted chemicals on-site. Puncture bag and deliver to an approved waste management facility. If an approved waste management facility is not available, bury the container 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

Section 14 - Transport Information

No specific transport considerations apply since *ANIBEX SOLUBLE POWDER FOR PIGS* is NOT classified as a dangerous good according to Australian Dangerous Goods (ADG) Code.

Section 15 - Regulatory Information

Poisons Schedule: S4

APVMA Approval Number: 85682

Approved pack size: 200g, 500g, 1kg, 5kg, 10kg, 15kg, 20kg

For more information please refer to the APVMA approved product label
