

COXI-STOP 50

COCCIDIOCIDE FOR PIGLETS & CATTLE

Abbey Animal Health Pty Ltd
SAFETY DATA SHEET

Section 1- Identification of Product and Supplier

Supplier Company Details: Abbey Animal Health Pty Ltd

Address: 16 Voyager Circuit Glendenning NSW 2761

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour service).

PRODUCT NAME

COXI-STOP 50 COCCIDIOCIDE FOR PIGLETS AND CATTLE

PRODUCT USE

For the control of coccidiosis in neonatal piglets caused by *Isospora suis*, and in cattle up to 9 months of age caused by *Eimeria bovis* or *Eimeria zuernii*.

Section 2- Hazards Identification

Statement of Hazardous Nature: This product is classified as: Not classified as hazardous according to the criteria of SWA.

ADG Classification: None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

GHS Classification:

Category 2 - Skin irritation

GHS signal word: WARNING

PICTOGRAM:

HAZARD STATEMENT

H315: Causes skin irritation.

PREVENTION

P280: Wear protective gloves

P264: Wash hands thoroughly after handling.

P102: Keep out of reach of children.

P262: Do not get in eyes, on skin, or on clothing.

RESPONSE

P302+P352: IF ON SKIN: Wash with plenty of soap and water.

P332 + P313: If skin irritation occurs: Get medical advice/attention.

P362: Take off contaminated clothing and wash before reuse.

STORAGE

P410: Protect from sunlight.

DISPOSAL

P501: Dispose of contents and containers as specified on the registered label.

Section 3- Composition / Information on Ingredients

INGREDIENTS:

| Chemical Name | CAS Number | Proportion (%w/v) |
|--------------------------|-------------|-------------------|
| Toltrazuril | 69004-03-01 | 5.0 |
| No-hazardous Ingredients | Secret | Secret |

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other nonhazardous ingredients are also present.

Section 4- First Aid Measures

Call Poisons Information Centre Phone Australia 131 126, if you feel that you may have been poisoned or irritated by this product.

SAFETY DIRECTIONS: When using this product wear rubber gloves. After each day's use wash gloves.

Swallowed: Do NOT induce vomiting. If vomiting occurs keep head lower than hips to help prevent aspiration. Seek medical attention if required.

Skin: Remove contaminated clothing. Wash affected area immediately with soap and water. Wash gently and thoroughly with water (use non-abrasive soap if necessary) for 5 minutes or until chemical is removed. Seek medical attention if required.

Eye: Flush eye immediately with large amounts of water or normal saline, occasionally lifting eyelids, until no evidence of chemical remains. Seek medical attention if eye irritation persists.

Inhaled: Inhalation of this product will not occur except as aspiration into the lungs after swallowing. In this event remove from exposure and perform artificial respiration if necessary.

Section 5- Fire Fighting Measures

Extinguishing Media: Sprayed water jet, foam, dry powder, CO₂, sand.

Fire/Explosion Hazard: Non-combustible material.

Hazardous Combustion Products: Thermal decomposition products include hydrogen cyanide, carbon monoxide, and nitrogen oxides.

Precautions for fire fighters: Fight fire in the early stages if safe to do so. Wear respiratory protection. In well ventilated areas wear full face mask with a combination filter. In enclosed premises: respirator with independent air supply.

Section 6 - Accidental Release Measures

Accidental release: When using this product wear rubber gloves. Prevent spillage from spreading or entering soil, waterways and drains. Take up with absorbent material such as sawdust, peat or chemical binder. Clean affected area with aqueous detergent and a small amount of water. Absorb this detergent/water with absorbent material. Place cleaning materials into the same container. Do not eat, drink or smoke during clean-up operation.

Section 7 - Handling and Storage

Safe Handling: The product is administered directly to piglets and cattle. When using this product wear rubber gloves. After each day's use wash gloves. Keep out of reach of children. Do not get in eyes, on skin, or on clothing.

Storage: Store below 30°C (room temperature). Protect from light.

Section 8 - Exposure Controls / Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits TWA (mg/m³) STEL (mg/m³).

Exposure limits have not been established by SWA for any of the significant ingredients in this product.

The ADI for Toltrazuril is set at 0.002 mg/kg/day. The corresponding LOAEL is set at 1 mg/kg/day. ADI means Acceptable Daily Intake; LOAEL indicates that NO NOEL means No-observable-effect-level has been identified in a Pivotal study. Data from Australian ADI List, September 2020.

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Ventilation: This product should only be used in a well-ventilated area. If natural ventilation is inadequate, the use of a fan is suggested.

Personal Protective Equipment (PPE):

Eye protection: No eye protection is required under normal conditions of use. Under other conditions of use wear safety goggles.

Skin Protection: When using this product wear rubber gloves. After each day's use wash gloves. Wash hands before breaks and at end of work.

Respirator: No respirator is required under normal conditions of use.

Protective material types: Rubber, latex.

General Advice: Avoid contact with eyes or skin. If product is splashed on skin, immediately wash area with soap and water. Clean working clothes and protective equipment with soap and water. After each day's use wash gloves. Wash hands after use and before breaks. When using the product do not eat, drink, or smoke.

Section 9 - Physical and Chemical Properties

| | |
|---|------------------|
| Physical Description and colour: | White suspension |
| Physical State: | Liquid |
| Boiling Point: | Not available |
| Vapour Pressure: | Not applicable |
| Specific Gravity: | Not applicable |
| Solubility in Water: | Miscible |

Section 10 - Stability and Reactivity

Chemical stability: Product is stable under normal conditions.

Conditions to avoid: Avoid strong oxidising agents.

Incompatible materials: None known.

Hazard Decomposition: Thermal decomposition products include hydrogen cyanide, hydrogen fluoride, carbon monoxide, sulphur dioxide, and nitrogen oxides.

Hazardous reactions: Will not polymerize.

Section 11 - Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the registered product label.

Please refer to **Section 2- Hazards Identification** when using this product.

Acute Toxicity:

Oral LD₅₀ (rat) close to 2200 mg/kg bodyweight

Dermal LD₅₀ (rat) > 5000 mg/kg bodyweight

Reproductive Effects: None of the ingredients of the formulation have been shown to produce reproductive or teratogenic effects.

Mutagenicity: None of the ingredients of the formulation have been shown to produce mutagenic effects.

Carcinogenic Effects: Toltrazuril has been shown in animal tests to have no carcinogenic potential. Other ingredients are not classified as carcinogens.

Section 12 - Ecological Information

Environmental Overview: The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. Avoid release to the environment.

Section 13 - Disposal Considerations

DISPOSAL [250 mL, 500mL]: Dispose empty container by wrapping with paper and placing in the garbage.

[1L, 2.5L, 5L]: Triple-rinse container and dispose of rinsate in compliance with relevant local, state or territory government regulations. Do not dispose of undiluted chemicals onsite. If recycling, replace cap and return clean container to recycler or designated collection point. If not recycling, break, crush, or puncture container and deliver to an approved waste management facility. If an approved waste management facility is not available, bury the broken, crushed or punctured containers 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

Section 14 - Transport Information

No specific transport considerations apply since *COXI-STOP 50 COCCIDIOCIDAL SOLUTION FOR PIGS AND CATTLE* is *NOT* classified as a dangerous good according to Australian Dangerous Goods (ADG) Code.

Section 15 - Regulatory Information

Poisonous Schedule: S5

APVMA Approval Number: 81911

Approved pack size: 250mL, 500mL, 1L, 2.5L, 5L.

For more information, please refer to the APVMA approved product label
