

RWR 4 FILLIES OILY ANABOLIC INJECTION FOR FILLIES AND MARES

ACTIVE CONSTITUENTS: 45mg/mL METHANDRIOL DIPROPIONATE, 30mg/mL NANDROLONE PHENYLPROPIONATE

Targeted support for fillies and mares

Anabolic steroid with low androgenic effect for horses.

- Restores condition and supports tissue repair in fillies and mares recovering from illness or stress
- Helps improve low serum protein levels and supports recovery from anaemia
- Aids convalescence following trauma or surgery, promoting overall recovery
- Supports bone health, development, and faster fracture healing
- Stimulates appetite and promotes vitality and confidence in timid fillies
