

RWR STANAZOL SUSPENSION INJECTIONS

Abbey Animal Health Pty Ltd SAFETY DATA SHEET

Section 1- Identification of Product and Supplier

Supplier Company Details: Abbey Animal Health Pty Ltd

Address: Unit 27/ 1 Maitland place, Norwest NSW, 2153

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour service).

PRODUCT NAME

RWR Stanazol Suspension Injection

PRODUCT USE

RWR Stanazol Suspension Injection is an anabolic for horses, dogs and cats. It contains the active ingredient Stanazolol, which is an anabolic steroid with a very low androgenic to anabolic ratio (1:250).

Section 2- Hazards Identification

Statement of Hazardous Nature: This product is classified as Hazardous according to the criteria of SWA.

ADG Classification: None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

Poisons Schedule Number: S4

GHS Signal word: Danger

GHS classification:

Reproductive Toxicity- Category 1

Carcinogenicity - Category 2

Pictogram(s):

HAZARD STATEMENT(S):

H319: Causes serious eye irritation.

H360: May damage fertility or the unborn child.

H351: Suspected of causing cancer

H373: May cause damage to organs through prolonged or repeated exposure.

PREVENTION

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood.

P263: Avoid contact during pregnancy and while nursing.

P264: Wash hands thoroughly after handling.

P270: Do not eat, drink or smoke when using this product.

P272: Contaminated work clothing should not be allowed out of the workplace.

P280: Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

RESPONSE

P301 + P312: IF SWALLOWED: Call the POISON CENTRE or doctor if you feel unwell.

P302 + P352: IF ON SKIN: Wash with plenty water.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308 + P311: IF exposed or concerned: Call a POISON CENTRE or doctor.

P308 + P313: IF exposed or concerned: Get medical advice/attention.

P330: Rinse mouth.

P332 + P313: If skin irritation occurs: Get medical advice/attention.

P337 + P313: If eye irritation persists: Get medical advice/attention.

P362 + P364: Take off contaminated clothing and wash it before reusing.

STORAGE

P410: Protect from sunlight.

P411: Store below 25°C.

P402+P404: Store in the closed container. Store in a dry and well-ventilated area.

DISPOSAL

P501: Dispose of small quantities and empty containers by wrapping them with paper and putting them in garbage.

Section 3- Composition / Information on Ingredients

INGREDIENTS:

Chemical Name

CAS No.

Content (%)

First Effective Date: 24th of April 2026

Non-hazardous Ingredients

Secret

to 100

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other nonhazardous ingredients are also present.

Section 4- First Aid Measures

Call Poisons Information Centre Phone Australia 131 126, if you feel that you may have been poisoned or irritated by this product.

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin: Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye: Rinse with water. Get medical attention if irritation develops and persists.

Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Personal protection for first-aid responders: Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Section 5- Fire Fighting Measures

Extinguishing Media: Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂). Do not use water jet as an extinguisher, as this will spread the fire.

Fire and Explosion Hazards: Keep away from extreme heat and open flames.

Hazardous Combustion Products: During fire, gases hazardous to health may be formed.

Protective equipment and precautions for fire fighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire Fighting Instruction: Move containers from fire area if you can do so without risk.

Section 6 - Accidental Release Measures

Personal precautions, protective equipment, and emergency procedures: Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.

Environmental precautions: Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

Method of Containment and Clean up Procedures

Prevent product from entering drains.

Large Spills: Stop the flow of material if this is without risk. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

Section 7 - Handling and Storage

Handling: Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Storage: Store below 25°C (Air conditioning). Protect from light. Store in original container tightly closed in a dry, cool place.

Section 8 - Exposure Controls / Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: AS/NZS 4501 set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits **TWA (mg/m³)** **STEL (mg/m³)**

Exposure limits have not been established by SWA for any of the significant ingredients in this product.

Appropriate engineering controls: No specific engineering controls required.

Personal Protective Equipment

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Eye Protection: Wear safety glasses with side shields (or goggles). (AS/NZS 1337)

Skin/Hand Protection: Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier. (AS/NZS 2161). Wear suitable protective clothing.

Respiratory protection: In case of insufficient ventilation, use respiratory equipment. (AS/NZS 1715)

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9 - Physical and Chemical Properties

Appearance	Fine particulate suspension in a clear slightly viscous aqueous vehicle
pH	Not available
Boiling point	Not available
Vapour pressure	Not available
Flash point	Not available
Specific gravity	Not available
Flammability	Not available
Solubility	Miscible in Water

Section 10 - Stability and Reactivity

Chemical stability: Material is stable under normal conditions.

Conditions to Avoid: Contact with incompatible materials.

Reactivity: The product is stable and non-reactive under normal conditions of use, storage, and transport.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Hazardous decomposition products: No hazardous decomposition products are known.

Section 11 - Toxicological Information

Eye: Based on available data, the classification criteria are not met.

Skin: Based on available data, the classification criteria are not met.

Inhalation: Based on available data, the classification criteria are not met.

Acute Toxicity:

LDLo intraperitoneal, rat 326 mg/kg

LD100 intraperitoneal, rat 325 mg/kg

Anabolics give rise to side effects related to their androgenic or anabolic effects. High doses of androgens may cause altered liver function with jaundice, fluid retention, high blood cholesterol, and occasionally enhanced red blood cell production. Androgens also may cause masculinization in women and gynecomastia (breast development) in men.

Chronic Toxicity: Prolonged or repeated exposure may result in acne and development of prominent musculature and veins.

Carcinogenicity: Prolonged use has been associated with hepatic tumours and prostate cancers.

Reproductive Toxicity: Prolonged exposure in men, may cause low sperm production and impotence may occur, may cause an increase in the size of the prostate gland and resultant urinary obstruction. In women development of excessive facial and body hair, deepening of the voice, irregularities of the menstrual cycle, baldness, and hypertrophy (enlargement) of the clitoris may occur. In children serious growth disturbances, premature sexual and bone development may occur.

Section 12 - Ecological Information

Ecotoxicity: No specific information available.

Section 13 - Disposal Considerations

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

Section 14 - Transport Information

No specific transport considerations apply since *RWR Stanazol Suspension Injection* is NOT classified as a dangerous good according to Australian Dangerous Goods (ADG) Code.

Section 15 - Regulatory Information

APVMA Approval Number: 51118

Approved pack size: 20 mL, 50 mL

For more information, please refer to the APVMA approved product label

Section 16 – Other Information

*Abbey Animal Health Pty Ltd

This Safety Data Sheet (SDS) summarizes our best knowledge of the health and safety hazard information of the product according to the GHS requirements and how to safely handle and use the product in the workplace.

Each user must review this SDS in the context of how the product will be handled and used in the workplace.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

***Note: This SDS is valid for 5 years from the effective date.**
