

ABBEY FLUNIXX HORSE PASTE

Abbey Animal Health Pty Ltd SAFETY DATA SHEET

Section 1- Identification of Product and Supplier

Supplier Company Details: Abbey Animal Health Pty Ltd

Address: Unit 27/ 1 Maitland place, Norwest NSW, 2153

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour service).

PRODUCT NAME

Abbey Flunixx Horse Paste

PRODUCT USE

Abbey Flunixx Horse Paste is used as an analgesic for the alleviation of inflammation and pain associated with musculoskeletal disorders in horses.

Section 2- Hazards Identification

Statement of Hazardous Nature: This product is classified as Hazardous according to the criteria of SWA.

ADG Classification: None allocated. Not a Dangerous Good according to Australian Dangerous Goods (ADG) Code, IATA or IMDG/IMSBC criteria.

Poisons Schedule Number: S4

GHS Signal word: Warning

GHS classification:

Acute Toxicity: Oral: Category 4

Specific Target Organ Toxicity (Repeated Exposure): Category 2

Pictogram(s):**HAZARD STATEMENT(S):**

H302 Harmful if swallowed.

H373 May cause damage to organs through prolonged or repeated exposure.

PREVENTION

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood.

P261 Avoid breathing dust/fume/gas/mist/vapours/spray.

P263: Avoid contact during pregnancy and while nursing.

P264: Wash hands thoroughly after handling.

P270: Do not eat, drink or smoke when using this product.

P272: Contaminated work clothing should not be allowed out of the workplace.

P280: Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

RESPONSE

P301 + P312: IF SWALLOWED: Call the POISON CENTRE or doctor if you feel unwell.

P302 + P352: IF ON SKIN: Wash with plenty water.

P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P308 + P311: IF exposed or concerned: Call a POISON CENTRE or doctor.

P308 + P313: IF exposed or concerned: Get medical advice/attention.

P330: Rinse mouth.

P332 + P313: If skin irritation occurs: Get medical advice/attention.

P337 + P313: If eye irritation persists: Get medical advice/attention.

P362 + P364: Take off contaminated clothing and wash it before reusing.

STORAGE

P410: Protect from sunlight.

P411: Store below 30°C.

P402+P404: Store in the closed container. Store in a dry and well-ventilated area.

DISPOSAL

P501: Dispose of small quantities and empty containers by wrapping them with paper and putting them in garbage.

Section 3- Composition / Information on Ingredients**INGREDIENTS:**

Chemical Name
Flunixin Meglumine

CAS No.
42461-84-7

Content (%)
8.3

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other nonhazardous ingredients are also present.

Section 4- First Aid Measures

Call Poisons Information Centre Phone Australia 131 126, if you feel that you may have been poisoned or irritated by this product.

Inhalation: If inhaled, remove to fresh air and keep comfortable at rest. Seek medical attention if breathing problems develop.

Skin Contact: In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur. Accidental injection may lead to an inflammatory response, seek medical attention in the event of self-injection.

Eye Contact: In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Removal of contact lenses should only occur by a trained professional. Seek immediate medical attention.

Ingestion: If swallowed, do not induce vomiting. Immediately rinse mouth with water. Give a glass of water. Never give anything by mouth to an unconscious person. Seek immediate medical attention and provide a copy of the SDS.

Symptoms Caused by Exposure:

Ingestion: Harmful if swallowed.

Medical Attention and Special Treatment: Treat symptomatically.

Section 5- Fire Fighting Measures

Suitable Extinguishing Media: Use fire extinguishing methods suitable to surrounding conditions. Use alcohol-resistant foam, dry chemical powder or carbon dioxide.

Specific Hazards Arising from the Chemical: Hazardous combustion products include toxic fumes of carbon monoxide, carbon dioxide, acid smoke, nitrogen oxides, metal oxides, poisonous fumes, corrosive fumes and other pyrolysis products typical of burning organic material.

This product is not flammable but may burn or decompose in a fire.

Containers close to fire should be removed if safe to do so. Use water spray to cool fire exposed containers.

Prevent firefighting run off from entering drains and water courses.

Section 6 - Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures: Wear approved chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours and ensure adequate ventilation.

Environmental Precautions: In the event of a major spill, prevent spillage from entering drains or water courses. Inform the relevant authorities in the event of environmental contamination.

Methods and Materials for Containment and Cleaning Up:

Small Spills: Clean all spills immediately. Wipe up and place in a labelled container for disposal.

Large Spills: Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect recoverable product and place into labelled containers for recycling. Collect the spilled material and place into a suitable labelled container for disposal. Decontaminate spill area with water, preventing run off into drains or water courses.

Never return spills to original containers for re-use.

Section 7 - Handling and Storage

Handling: Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Storage: Store below 30°C (Room temperature). Do not freeze. Protect from light. Store in original container tightly closed in a dry, cool place.

Section 8 - Exposure Controls / Personal Protection

The following Australian Standards will provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**, Occupational Protective Clothing: **AS/NZS 4501** set 2008, Industrial Eye Protection: **AS1336** and **AS/NZS 1337**, Occupational Protective Footwear: **AS/NZS2210**.

SWA Exposure Limits	TWA (mg/m ³)	STEL (mg/m ³)
---------------------	--------------------------	---------------------------

Exposure limits have not been established by SWA for any of the significant ingredients in this product.

The ADI for Flunixin Meglumine is set at 0.006 mg/kg/day and NOEL is set at 0.6 mg/kg/day.

ADI means Acceptable Daily Intake; NOEL means No-observable-effect-level. Data from Australian ADI List, September 2025.

Exposure Standards: No exposure standards have been set for this product.

Appropriate engineering controls: No specific engineering controls required.

Personal Protective Equipment

No special equipment is usually needed when occasionally handling small quantities. The following instructions are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Eye Protection: Wear safety glasses with side shields (or goggles). (AS/NZS 1337)

Skin/Hand Protection: Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier. (AS/NZS 2161). Wear suitable protective clothing.

Respiratory protection: In case of insufficient ventilation, use respiratory equipment. (AS/NZS 1715)

Hygiene measures: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9 - Physical and Chemical Properties

Appearance:

Form: Clear Paste

Colour: No information available

Odour: No information available

Odour Threshold: No information available

pH-Value: No information available

Melting point/freezing point: No information available

Initial Boiling Point/Boiling Range: No information available

Flash Point: Not applicable

Flammability: Product is not flammable

Auto-ignition Temperature: Not applicable

Decomposition Temperature: No information available

Explosion Limits:

Lower: Not applicable

Upper: Not applicable

Vapour Pressure: No information available

Density: No information available

Relative Density: No information available

Vapour Density: No information available

Evaporation Rate: No information available

Solubility in Water: No information available

Partition Coefficient (n-octanol/water): No information available

Viscosity: No information available

Section 10 - Stability and Reactivity

Possibility of Hazardous Reactions: Hazardous polymerisation will not occur.

Chemical Stability: Stable at ambient temperature and under normal conditions of storage and use.

Conditions to Avoid: Avoid heat, sparks, open flames and other ignition sources.

Incompatible Materials: Incompatible with oxidising agents (e.g. hypochlorites), acids (e.g. nitric acid) and alkalis (e.g. sodium hydroxide).

Hazardous Decomposition Products: May evolve carbon oxides and hydrocarbons when heated to decomposition.

Section 11 - Toxicological Information

Acute toxicity: Harmful if swallowed. This product is used in veterinary applications. Use safe work practices to avoid eye contact, prolonged skin contacts and ingestion. Refer to medical doctor/specialist for advice regarding adverse side effects.

Skin: Contact may result in irritation, redness, pain and rash.

Eye: Contact may result in irritation, lacrimation, pain and redness.

Sensitisation: Not classified as causing skin or respiratory sensitisation.

Mutagenicity: Not classified as a mutagen.

Carcinogenicity: Not classified as a carcinogen.

Reproductive: Not classified as a reproductive toxin.

STOT – single exposure: Not classified as causing organ damage from single exposure. However, high level exposure may result in headache, nausea and respiratory tract irritation.

STOT – repeated exposure: May cause damage to organs (Liver) through prolonged or repeated exposure if swallowed.

Aspiration: Not classified as causing aspiration.

Section 12 - Ecological Information

Ecotoxicity: No information available.

Section 13 - Disposal Considerations

Disposal Methods and Containers: Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration: Please consult your state Land Waste Management Authority for more information.

Section 14 - Transport Information

No specific transport considerations apply since *Abbey Flunixx Horse Paste* is NOT classified as a dangerous good according to Australian Dangerous Goods (ADG) Code.

Section 15 - Regulatory Information

APVMA Approval Number: 95770

Approved pack size: 30g

For more information, please refer to the APVMA approved product label

Section 16 – Other Information

Abbey Animal Health Pty Ltd

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour service).

This Safety Data Sheet (SDS) summarizes our best knowledge of the health and safety hazard information of the product according to the GHS requirements and how to safely handle and use the product in the workplace.

Each user must review this SDS in the context of how the product will be handled and used in the workplace.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

***Note: This SDS is valid for 5 years from the effective date.**
